

DROUGHT PREPAREDNESS PLAN

No exemptions

- 1) The name, address and telephone number of the community water system and the names of Officers or other persons responsible for directing operations during a water shortage emergency
- 2) Drought or emergency response stages that provide for implementation of measures in response to a reduction in available water supply resulting from drought or infrastructure failure
- 3) A plan of action that the community water system will take to respond to drought or water shortage conditions, including:
 - A) Provisions to actively inform the public of the water supply shortage and a program for continued education and information regarding implementation of the Drought Preparedness Plan
 - B) Development of emergency supplies, which may include identification of emergency or redundant facilities to withdraw, divert or transport substitute supplies of the same or other types of water
 - C) Specific water supply or water demand management measures for each stage of drought or water shortage conditions

Note – 1) Measures are subject to approval by the Arizona Corporation Commission (ACC) if the community water system is a public service corporation.

- 2) This requirement may be met by providing a curtailment tariff on file with the Arizona Corporation Commission (ACC).
